

4

Be sure to keep the arm in horizontal position during adjustment. Or else, it would be difficult to adjust the mount.

Press down the arm to a horizontal position

NOTE: Turn clockwise to reduce tension for lighter monitors and counter-clockwise to increase tension for heavier monitors.

S=5mm

B

Use a hex wrench to adjust the height tension of the gas spring arm, to keep different weight of monitors still at any position.

5

S=5mm

Use a hex wrench to adjust the damp for tilting. Turn counter-clockwise to reduce damping and clockwise to increase damping.

S=5mm

B

Insert cables into cable covers. Leave enough slack of cables at arm joints for full adjustment.

Gas Spring Aluminum LCD Monitor Desk Mount

Installation

INSTRUCTIONS

WARNING STATEMENTS

Warning

- ⚠ Prior to the installation of this product, the installation instruction must be read and completely understood. Failure to do so may result in personal injury, property damage or voiding of factory warranty.
- ⚠ Do not install on a structure that is prone to vibration, movement or chance of impact. Reinforce the structure as required before installation.
- ⚠ The desk clamp can support a maximum thickness of 10 cm. Confirm the desk edge before installation.
- ⚠ Pay attention to the weight capacity of the mount. Exceeding the limitation can result in function unworkable or even serious personal injury and property damage.
- ⚠ Never operate the mount if parts are missing or damaged. Contact your local service center for warranty service.

1 Desk Clamp installation

OR Grommet installation

NOTE: If your desk has an existing grommet hole, please install directly. If there is no existing grommet hole, make a mark on your mounting surface, and drill a hole (40-60mm) in the mounting surface.

NOTE: Change the clamp default holes if desktop is between 60-100 mm.

2

Install the lower arm to the base.
Insert the gas spring arm above the lower arm.
